

Diego Benítez

"If inspiration doesn't come to you, you have to go and find it."

Diego Benítez began his career in the world of urban art. He pursued artistic training and since 2010 has focused on painting, exhibiting widely both nationally and internationally.

Benítez's painting is a dialogue that verges on abstraction were it not for an ever-present horizon. His work is characterized by calm colors and fine lines that create soothing atmospheres. His pieces inspire imagination and contemplation; they create space where his viewers can rest and where harmony is achievable.

Benítez has received over 15 national awards and has been represented in such international art fairs as Art Karlsruhe (Germany), Paris Art Fair (France), Lausanne Art Fair (Switzerland), and Art Medellín (Colombia).
